## Import Seafreight

**DATE:** 26<sup>th</sup> January 2012  
**To:** Our Valued Italy Import Customers  
**SUBJECT:** **Italian Truckers Strike**

---

Dear Valued Client,

Please be advised that there is General Strike in effect for all Italian Truck drivers. This will affect both FCL and LCL pick ups and also the delivery of our LCL containers to the port.

If you have any current orders in place for collection this week, we will be checking the status of the loads as soon as they come to hand and will be sending updated arrival info. Please look out for these emails as any vessel changes will be noted.

We understand the truckers are protesting against the government austerity measures and began striking earlier this week and expected to continue all week. This is causing massive disruption to food supplies and prices are soaring. A couple of pics below for interest.

"I'm trying to strike here – what do you want from me??" ☺

Please don't hesitate to contact us if you have any questions.

Kind Regards

Adam Hiron
